Give your customers what they want...

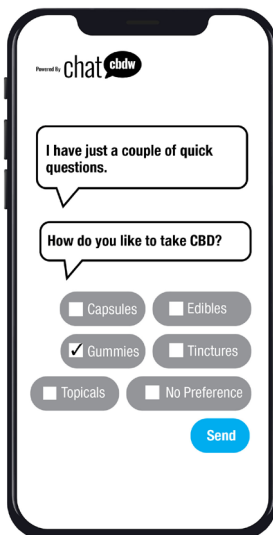

Faster self-service with a human-like conversational AI chatbot.

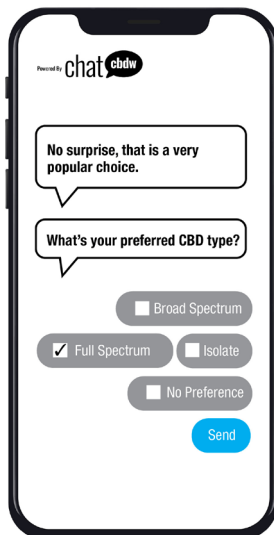

A conversational tone that's informal, friendly and approachable.

Answers over 1,000 frequently asked questions about CBD.

Customer answers first question by selecting Gummies.

Customer answers second question by selecting Full Spectrum.

The Chatbot introduces products matching customers responses.

Why use an AI chatbot powered by ChatGPT technology on your website?

Better Understand Your Customers Needs

AI chatbots can gather data on customer queries and interactions, providing valuable insights into customer needs and preferences. This information can help businesses make more informed decisions about product offerings, marketing strategies, and customer support.

Improve Your Customer Experiences

AI chatbots can provide customers with instant personalized support, ensuring their queries are addressed promptly and efficiently, helping improve customer satisfaction and retention.

Increase Communication Efficiencies

AI chatbots can handle multiple customer queries simultaneously, reducing response times and increasing efficiency. This can lead to cost savings for businesses.

Gain A Valuable Competitive Advantage

By utilizing AI chatbots, CBD brands can gain a competitive edge by offering customers a unique and personalized experience. This can help differentiate their businesses from their competitors while driving more sales.

Put our CBD merchandising chatbot to work for 60 days without cost or obligation.

Sell more CBD while collecting valuable data and insights.

- Email captures
